Why Hire a Wedding Consultant?

Contrary to what many people believe, a wedding consultant is part of your wedding budget, not an extra expense! We can save you money by suggesting less expensive alternatives that still enhance your wedding. In addition, we obtain exclusive discounts from service providers we work with. If this is not enough, we are more than worth our fee by serving as an intermediary between you and your parents and/or service providers. You shouldn't be stressed the day of your wedding--let us handle the details!

Although we specialize in weddings, we also create custom packages for following events:
